

The front logo of the T-shirt is inspired by the various tracks of ECE. There are positive and negative electrons, microelectronic PCBs, sockets, ohmmeters, RLC circuits, high voltages, signal waveforms, plugs, and light bulbs. The light bulb is placed in the center to commemorate the light bulb is an important symbol of ECE. A section of wire is represented by a square wave.

The reverse side of the T-shirt uses a well-known sentence on the Internet "Trust me, I'm an engineer!". It comes from a lyric of a song on the Internet. The title of the song is "Trust me, I'm an engineer" and the author is VilkaZ.

The logo on the front uses "Ming Hsieh Institute"

The reverse logo uses the Viterbi logo.

The logo on the front is done by hand on the IPAD using NOTABILITY app, and the slogan on the back is done using WORD.
